SUBJECT: MTC's Study of Parking Policies to Support Smart Growth:
Questionnaire For Potential Case Studies

Dear Ms. Knepper:

Please accept the attached case study questionnaire regarding the MTC Study on Parking Policies to Support Smart Growth. The City of Vallejo is very interested in participating as a case study. The City's overall goal as a participant in this study is to develop a parking management plan that will meet the current and future parking needs of the anticipated and existing downtown and waterfront development.

It is our understanding that there is no financial obligation for the City of Vallejo for our participation in this study except for the staff time to provide your consultant with any existing documents available regarding existing and future development within the study area.

If you have questions or would like to discuss this matter, please contact the Traffic Engineering Division at (707) 648-5514 or (707) 648-4300.

Sincerely,

JOHN P. THOMPSON
Interim City Manager
